### ***Storm-Stayed***

*When snowflakes are whirling and highways are drifted*

*When hounds are in kennel and nags in their stalls;*

*When the centre of faith to the fireside has shifted*

*And life is confined within four solid walls.*

*There's never a storm-cloud too dark to be lifted*

*When dream-logs are burning in horse-lovers' halls.*

\*\*\*\***FUN FOX FACTS:** (Subscribers and friends are encouraged to send their favorite fox facts, general or specific.) Foxes are great night-time predators because their eyes are specially adapted to night vision.

Behind the light sensitive cells lies another layer called the *tapetum lucidum* which reflects light back through the eye. This doubles the intensity of images received by the fox.

Their eyes glow green when light is shined into them at night.

ODFP partners with Fauquier For Immediate Sympathetic Help (FISH) to get the word out about the pantry. FISH is located in Warrenton near the Salvation Army and is a privately funded food bank. FISH arranges for needy children to take home backpacks of food every week through the elementary schools.

Here's how you can help:
